

Milspec Industries

50ft 12/3 STW Pro Cap Covered Power Distribution Cord 600V

Our heavy-duty Pro Cap Extension Cords feature molded and lighted, Pro Cap™ multi-outlet connectors and our ring sealed male plug.

FEATURES

- Manufactured to 12/3 AWG (American Wire Gauge) specifications.
- Each of the 3 conductors contain 65 strands of soft drawn annealed 30 gauge 100% copper wire.
- Type "STW" 600V thermo vinyl cold weather jacket guarantees the cord not to crack and remain flexible in temperatures below freezing.
- Converts a single outlet extension cord into five (5) outlets at 10ft. intervals on a 50ft. cord.
- Clear neon lighted connectors indicates that there is power in the circuit.
- Bright neon lamps are rated for 25,000 hours of usage.
- Cap covers keep moisture, dirt and grime out of the outlets when not in use.
- Pro Cap™ outlets when used with a Pro Cap™ male plug will form a water resistant, dust resistant, airtight connection.
- Pro Cap™ extension cords (plugs & connectors) will not pull apart from each other. This is due to an airtight suction induced seal at each connection that's created as the cords ends are plugged together.
- Bright neon lamps are rated for 25,000 hours of usage.
- Jacket Color: White, Black or Yellow
- Length: 50ft
